

How to TRADE UP or get an UPDATE from CASTLE Q

=====

Firstly you need to demolish your current Castle.
Your furniture can stay in place as most Castles will have the same height floors.
Make sure you are in the Castle Q Group or Trades are not allowed.

To see your Rezzar use the Control Scroll provided with your Castle and go to the last page.

Here use the See Rezzar option and then look in the center of your ground floor for the Cylinder with a Q on it. If you have lost your Scroll try standing in the middle of the Ground floor and say in chat: /111 unHide (H is a capital).

As long as you kept your Rezzar in place and did NOT FREEZE then it is simple. Touch the Rezzar and if you see the REMOVE option select it. The Castle will demolish.

If that option is not seen try the option NOTHING (Yes its an option)
Then touch again and you may see REMOVE.
If none of these appear you may have used FREEZE or SAVE and disabled the Rezzar.
In this case you will have to manually demolish all the parts of the Castle.

Once you have managed to remove your Castle Q then TAKE the Rezzar back into your inventory.

The Standard Rezzars are Transfer so you can just send it to me by dropping into my profile.
The Older Rezzars or Mod/copy versions are not transfer so cannot be exchanged. However if you make a time with me I will meet you at Castle Q and arrange a trade.

Once I have your old Rezzar then I will provide the new Castle Rezzar.
In the case of a model Update it is free to the Owner.

A fully Modify / Copy version is the same price but there is NO FREE support. You must have good building skills or you will break it. I can make you a custom Castle with the changes you require and will quote for this service. With a Custom Castle you will get free support and I keep a copy of it should you need a replacement.

For a Trade Up you will pay the difference from what you paid before to the price of the Castle you now want. For example: If you had a Q3 and wanted a Q7 then the Q3 you may have paid L\$3000 for before and the Q7 is worth now L\$7000. You will only pay L\$4000 to Trade Up. Sale prices and one off discounts do not apply here. Standard Prices apply for all trades. These are L\$1000 times the Q number. You can only get a trade for what you paid before.

You can also Trade up by sending Qabalah Quintus an IM or note, then buying the bigger Castles from the Signs at Castle Q and sending back your old Rezzar. I will then refund you the trade in price when I am online.

Should you need help or more information please contact me.
